Higher thermal efficiency and better protection

- Effectively prevent scale from forming
- Suitable for single appliance protection and cost effective

environment friendly

- Food grade, slow-release antiscalant

PHILIPS

Specifications

Filter specifications

- Filtration capacity: 27000 L

General specifications

- Filter lifetime: 6 months

Highlights

Effectively scale inhibit

MMSAP manages hard water by producing weak electric interference effects on hardness minerals ions, such as calcium and magnesium, as well as carbonate ions, preventing them from forming into scale.*

Long-lasting antiscalant

X-Guard Power antiscalant for 27000 L capacity. Antiscalant life time up to 6 months.**

Environmentally friendly

Made of new Atoxic materials with stable physical and chemical properties, which will not cause phosphorus pollution.

* *It is not a softener. It does not remove calcium and magnesium from water as softeners do.

**The actual lifespan of the filter cartridge depends on the local water quality and daily usage.
