- Cordless use for up to 60 mins
- Simple maintenance
- Lights indicate when battery is low, empty, full or charging

#### **Ultimate beard styling**

- Get a perfect but protective trim
- 2.5x more Precision \*

# Highlights

## 2.5x more Precision \*

Cut to the exact length you are after. Easily spin the precision dial to one of the 20 length settings between 0.4-10mm. Giving you full control starting with 0.2mm precision steps.

## BeardSense Technology

BeardSense Technology checks the hair density of your beard 125 times per second and automatically adapts the motor to maintain constant cutting performance.

## Self-sharpening blades

The self-sharpening steel blades stay as sharp and effective as on day 1 to deliver a perfect yet protective trim, time after time.

## Skin-friendly blades

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

## Lift&Trim system

Perfect for stubble, the Philips beard trimmer features our new Lift & Trim system: a comb that lifts and guides the hairs to the level of the blades for an even trim.

## 60 min cordless use

A powerful lithium-ion battery provides up to 60 minutes of cordless grooming time with just 1 hour charge. The 5 minute quick charge function gives you enough power for one trim.

## Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can charge your trimmer on time and fully, so you won't end up with an empty battery in the middle of your trim.

## USB charging

This beard trimmer comes with a USB cable for more flexible charging. The adaptor is not included (recommended adaptor Philips HQ87).

## Ergonomic design

A fast trimmer that's comfortable to hold and use. So you can handle those hard-to-reach areas more easily.

# Specifications
