Simple plug-and-play replacement

- Easy to install and compatible with most vehicles
- Easy to install on your vehicle

Bright LED lights

- Signal your intent with brighter exterior lighting

Good light distribution

- Optimised for enhanced visibility

Highlights

Bright and vibrant signals

Signalling the intended movement of your vehicle is vital to your safety. To avoid collisions, other people need to know what you're doing, whether it's reversing, manoeuvring, turning or stopping. And when poor weather reduces visibility, bright and vibrant signalling is even more crucial. As stop and rear fog lights, Philips Ultinon Pro3100 signalling lights give you the performance you need, allowing other drivers vital extra time to react. Upgrade your exterior lighting to a more intense red.

Good light distribution

The Philips Ultinon Pro3000 LED exterior lighting range is designed for smarter light distribution to project exterior signalling light where you need it (whether that's reversing, stopping or signalling). With wide-angle, uniform light, not only can you see more of the road, but other drivers can also see more of you.

Long-lasting LED lighting

You want bright and stylish lights, but you don't want to keep replacing failed lamps. That's a major weakness of conventional signal lights - the more powerful the light, the shorter its lifespan. At the same light intensity, LEDs last

much longer. Philips Ultinon Pro3100 LED lights are extremely durable with their lifetime of 3,000 hours which is up to 7 times the lifespan of conventional W21W signalling bulbs (Philips W21W 12 V). Replacing your conventional W21W with Philips Ultinon Pro3100 LED lights will avoid multiple replacements in the future to save you money and time.

Ready, steady, installed!

Enjoy the plug-and-play experience: the Philips Ultinon Pro3100 comes with standard caps so replacement is easy and quick.

Polarity-free design

Enjoy the plug-and-play experience: the Philips Ultinon Pro3100 comes with polarity-free design, so you don't need to worry about the polarity during installation. It will save you time and make installation easier.

Instant-on technology

Compared to incandescent lamps, Philips Ultinon Pro3100 LEDs light up instantly to ensure that other drivers can react faster, keeping you safer.

Specifications

Marketing specifications

Expected benefits: Transform your lights

Product highlight: Polarity-free, Easy to install, ECE red colour

Product description

Application: Stop lights and rear fog lights

Base: W3x16d

Designation: LED-Red [~W21W]

ECE certification: NO

Range: Ultinon Pro3100

Technology: LED

Type: LED-Red [~W21W]

Lifetime

Life time: 3000 hrs

Light characteristics

Lumens: 65

Color temperature: Red

Electrical characteristics

Wattage: 1.73 W

Voltage: 12 V

Ordering information

Order entry: 11065RU31B2

Ordering code: 02194630

Packaging Data

EAN1: 8719018021946

EAN3: 8719018021953

Packaging type: B2

Packed product information

Length: 9.5 cm

Width: 1.5 cm

Height: 13.5 cm

Pack Quantity: 2

MOQ (for professionals): 10

Outerpack information

Length: 14.2 cm

Width: 12.1 cm

Height: 10.3 cm
