Highlights

Extended controller

The extended controller allows you to adjust the massager while sitting or lying down without bending down. Equipped with dedicated storage for the controller, easy to access and use at any time. No need to worry about losing your controller.

8 massage nodes

Double roller design. 3D bionic method, simulates human hand massage. 8 large contact points in a wide contact area, which are arranged at different heights to relax the muscles like undulating waves and provide a comfortable experience.

Available in different parts

2 modes available: knead thighs and calves to slowly relieve pressure and relax tight muscles; press the soles of feet to help relax arches.

Comfortable massage techniques

Preset 2 major techniques of kneading and pressing, with 2 intensity levels. It allows you to enjoy a relaxing massage for the feet and legs.

Well selected fabrics

The outer layer is made of soft leather, which is smooth and delicate to the touch and easy to clean. The inner lining is made of durable fabric, which is skin-friendly and breathable. You will feel comfortable when used close to the skin.

Rapid heating

Adopting neon lamp heating method, the heat output is uniform and stable. You can feel the warmth and care of your legs and feet in about 5 seconds
