

Philips Micro music system

- Dock for iPod/iPhone/iPad
- 40 W

DCM3060

Sound system that fits your home

Obsessed with sound

Dock your iPod/iPhone/iPad, or connect other devices via USB Direct - and enjoy the booming bass of wOOx technology. Cleverly designed with wall-mount options, this Philips DCM3060/12 micro music system delivers brilliant sound in style.

Enrich your sound experience

- wOOx™ loudspeaker Technology for deep and powerful bass
- Digital Sound Control for optimised music style settings
- Dynamic Bass Boost for deep and dramatic sound
- 40 W RMS total output power

Enjoy your music from multiple sources

- Play and charge your iPod/iPhone/iPad
- Play MP3/WMA-CD, CD and CD-RW
- USB Direct for MP3/WMA music playback
- MP3 Link for portable music playback
- Digital tuning with preset stations for extra convenience
- Radio Data System for station information and data services

Design that blends into your interior

- Wall-mountable option for flexible placement
- Motorised sliding front door adding style and elegance

PHILIPS

Highlights

wOOx™ Technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise base without noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classical controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Play and charge iPod/iPhone/iPad

Enjoy your favourite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favourite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Radio Data System (RDS)

The Radio Data System (RDS) lets you tune into radio stations without having to remember the frequencies. In standard mode, RDS displays the station name instead of the transmission frequency, facilitating quick and easy tuning. RDS also allows stations to send text messages such as news and station information directly to the radio display. Commonly used in Europe, RDS text is sent out on the same frequency the radio station broadcasts on. You can choose either the basic RDS display (station name) or subscribe to additional text-based services.

Specifications

Sound

- Output power: 2 x 20 W RMS
- Sound enhancement: wOOx™ Technology, digital sound control, Dynamic Bass Boost
- Volume control: up/down

Loudspeakers

- No. of built-in speakers: 2
- Speaker drivers: 3" woofer
