Highlights

Plug & Play pack - 2 handsets

The unique soft touch feel ensures that the phone lies perfectly within your hand and increases comfort while calling.

Baby-sit function

Worried about your baby not sleeping? No need to constantly go and check in his bedroom. The baby-sit mode allows you to keep an ear on him wherever you are in the house.

Free intercom

No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

Large display

This type of display makes it easier to use your phone, thanks to the good quality and legibility of the characters. It also gives you more freedom in communication from your home especially when sending an SMS.

Send & receive SMS

The SMS is a simple way to exchange information over the telephone line. You first type your text off-line and when you are ready, you send it to as many people as like.

Handsfree on Handset

The handsfree speaker phone lets you hold a conversation while your hands are busy with something else and wherever you are. With both the speaker and the microphone in front of the handset, it is just like talking face to face with your correspondent.

Polyphonic ringtones

A polyphonic ringtone means that the phone can play many tones simultaneously, so that an accurate musical performance is possible, and when played through the phone's speaker these polyphonic ringtones sound like real music.

Name and number display

The alphanumeric display offers the possibility to display numbers as well as letters, and lets to assign a name to a number.

Backlit LCD display
