- Snapshot button
- On/off activity LED
- Instant upload to YouTube

Software

- Dedicated software: Philips CamSuite
- Add video to: Skype, Windows Live Messenger, Yahoo! Messenger, AOL Instant Messenger

System Requirements

- Operating System: Microsoft Windows XP (SP2), Microsoft Windows 7, Microsoft Windows Vista 32-bit, Microsoft Windows Vista 64-bit

- Processor: 1.6 GHz or equivalent
- RAM memory: 512 MB RAM (for XP) / 1 GB RAM (for Vista and Windows 7)
- Hard disk space: 200 MB
- USB: Free USB port
- CD-ROM or DVD-ROM Drive

Connectivity

- Cable length: 1.5 metre
- Interfacing: USB 1.1, USB 2.0
- USB video class: UVC
- Power: Supplied via USB cable

Product dimensions

- Product dimensions (W x H x D): 3.7 x 5.6 x 1.2 cm
- Product dimensions with stand (W x H x D): 4 x 8.8 x 8.8 cm
- Weight (with stand): 0.105 kg

Packaging dimensions

- Packaging dimensions (W x H x D): 9.5 x 19.5 x 7.5 cm
- Net weight: 0.105 kg
- Gross weight: 0.41 kg
- Tare weight: 0.305 kg
- EAN: 87 12581 52646 7
- Number of products included: 1
- Packaging type: Window box

Outer Carton

- Outer carton (L x W x H): 24.5 x 20.5 x 20.5 cm
- Net weight: 0.63 kg
- Gross weight: 1.63 kg
- Tare weight: 1 kg
- EAN: 87 12581 52647 4
- Number of consumer packages: 6

Highlights

Enhanced 8 megapixels photo

Your webcam gives you more detail with 8 megapixels (software enhanced) resolution photos. This is enough for printing poster-sized images in high resolution.

Wide-angle lens

The high-quality wide-angle glass lens gives you a larger field of view. The wide-angle lens operates in the same way as a wide-angle photography lens and it gets more people in the video frame without any loss in video quality.

Instant video upload

Stay close to your friends and family by sharing your latest videos on YouTube. Just create a personal video with your webcam and use a single application to upload it to YouTube in 3 easy steps. Double click to select the video, enter your YouTube username and password, then enter the subject and description of the video (if any) and click 'Upload'.

Face tracking

The state-of-the-art camera software automatically detects your face and moves the lens to follow you as you move. You can stay in the centre of the screen even if you move during a video chat. It gives you the freedom to express yourself and converse naturally.

Natural 60 frames/sec. video

Create natural-looking, full motion video at 60 frames per second. It's ideal for video-chatting with friends or high-quality video recording.

Built-in directional mic.

The directional microphone focuses on your voice so you can talk naturally and don't have to move closer to the microphone to be heard. This automatically cuts down on background noise and gives a more natural sound.

Easy storage

Camera head folds to front for easy storage

Free rotating joint

Enjoy easy webcamming freedom with this handy pivot joint design. Just turn the camera 360° in any direction to film anywhere you want without moving the webcam at all.

Universal clamp

The universal clamp makes it easy to sit or mount the webcam securely on top of any desktop computer, notebook or LCD screen. The design is especially secure and the webcam won't move or fall when you're in the middle of a conversation.
