PHILIPS

Highlights

Wireless streaming

With wireless streaming, you don't need to download and store large music files on our audio device. Instead, you can listen to favorite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts your desired music from the Center to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in

any room that is equipped with a Wireless Music Center or Station.

UPnP Wireless streaming

Free your entire music collection from your PC and play it back through your Streamium Wireless music station! With the UPnP connection that lets you connect to any Universal Plug & Play-enabled device to receive or transmit music; the Streamium enables you to access, select and search your music collection in your PC. Just use the remote control and choose your songs through the

Streamium and play it back. Enjoy your favorite music wirelessly and effortlessly.

Free internet radio stations

Streamium comes with thousands of free Internet radio stations. Now you can stay abreast of all kind of music worldwide. Connect your Streamium to the Internet and listen to your favorite online programs on your audio system without having to turn on your PC.
