PB9001

Blu-ray goes everywhere with you

with HDMI for HDTV enjoyment at home

Now you can watch Blu-ray and DVD movies anywhere - in the terrace, on vacation, or travelling. What's more, you can play other digital video formats directly from USB sticks. Back at home, you get to enjoy cinematic full HD on TV via HDMI.

Play your movies, music and photos on the go

- Blu-ray Disc playback for sharp images in full HD 1080p
- DVD, DVD+/-R, DVD+/-RW, (S)VCD, CD compatible
- DivX Plus HD Certified for high definition DivX playback
- Hi-Speed USB 2.0 Link plays video/music from USB flash drive

Enrich your AV entertainment experience

- 22.9 cm (9") high density (800x480 pixels) LCD display
- BD-Live (Profile 2.0) to enjoy online Blu-ray bonus content
- Dolby TrueHD and DTS-HD MA for HD 7.1 surround sound
- DVD video upscaling to 1080p via HDMI for near-HD images

Extra touches for your convenience

- Enjoy up to 3 hours playback with a built-in battery*
- Full Resume on Power Loss
- Travel bag included

PHILIPS

Highlights

Power Resume

The DVD-Video player remembers where you stop watching last time when it is powered off directly or when the power supply discontinued. If you did not switch to play another disc, your player will resume play where you have stopped the movie last time just by reloading the disc. Making your life a lot easier!

BD-Live (Profile 2.0)

BD-Live opens up your world of high definition even further. Receive up-to-date content just by connecting your Blu-ray Disc player to the internet. Exciting new things like exclusive downloadable content, live events, live chats, gaming and on-line shopping all await you. Ride the high definition wave with Blu-ray Disc playback and BD-Live

Blu-ray Disc playback

Blu-ray Discs have the capacity to carry high definition data, along with pictures in the 1920 x 1080 resolution that defines full high definition images. Scenes come to life as details leap at you, movements smoothen and images turn crystal clear. Blu-ray also delivers uncompressed surround sound - so your audio experience becomes unbelievably real. The

high storage capacity of Blu-ray Discs also allow a host of interactive possibilities to be built in. Seamless navigation during playback and other exciting features like pop-up menus bring a whole new dimension to home entertainment.

DivX Plus HD Certified

DivX Plus HD on your Blu-ray player and/or DVD player offers the latest in DivX technology to let you enjoy HD videos and movies from the Internet direct to your Philips HDTV or PC. DivX Plus HD supports the playback of DivX Plus content (H.264 HD video with high-quality AAC audio in an MKV file container) while also supporting previous versions of DivX video up to 1080p. DivX Plus HD for true HD digital video.

Dolby TrueHD and DTS-HD MA

DTS-HD Master Audio and Dolby TrueHD delivers 7.1 channels of the finest sound from your Blu-ray Discs. Audio reproduced is virtually indistinguishable from the studio master, so you hear what the creators intended for you to hear. DTS-HD Master Audio and Dolby TrueHD complete your high definition entertainment experience.

DVD video upscaling

HDMI 1080p upscaling delivers images that are crystal clear. DVD movies in standard definition can now be enjoyed in high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan (represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multi-channel audio, without conversions to analog - delivering perfect picture and sound quality, completely free from noise.

Hi-Speed USB 2.0 Link

The Universal Serial Bus or USB is a protocol standard that is conveniently used to link PCs, peripherals and consumer electronic equipment. Hi-Speed USB devices have a data transfer rate of up to 480 Mbps - up from the 12 Mbps in original USB ones. With Hi-Speed USB 2.0 Link, all you have to do is plug in your USB device, select the movie, music or photo and play away.

Specifications

Picture/Display

- Diagonal screen size: 9 inch / 23 cm
- Resolution: 800(w)x480(H)x3(RGB)

Sound

- Output Power: 600mW RMS(built-in speakers)
