

Philips  
Digital wireless  
headphones

**Quick charge**

**SHD8900**

## Rich wireless music

True to the last details

Clear digital transmission, flawless reception and true CD sound quality deliver acoustics that are incredibly rich yet smooth. Its audio performance is matched by premium comfort from a self-adjusting inner headband and soft ear cushions.

### **Superior listening experience**

- Crystal-clear (2.4 GHz) digital transmission
- True CD sound quality lets you enjoy your music fully
- Dual-antenna design ensures 360° reception
- Acoustically tuned speakers for outstanding sound quality

### **Provides comfort for prolonged use**

- Self adjusting inner headband ensures a comfortable fit

### **Ease of use**

- Quick charge feature for speedy recharging
- Store your receiver on the convenient docking station

sense and simplicity

# Specifications

## Sound

- Acoustic system: closed
- Magnet type: Neodymium
- Frequency response: 20 - 20 000 Hz
- Signal/noise ratio: >88 dB
- Speaker diameter: 40 mm

## Tuner/Reception/Transmission

- Channel selection: automatic
- Effective range: 30 m

## Convenience

- Automatic power off
- Base station features: LED indicator
- Low battery indicator
- Battery charging indicator
- Operating time: +/- 10 hours

## Accessories

- AC/DC Adaptor: 6V/ 1000mA DC
- Battery charger: recharging docking station

## Power

- Power supply headphone: 3 x AAA rechargeable batteries
- Power supply transmitter: 6V/ 1000mA DC

## Packaging dimensions

- Packaging dimensions (W x H x D): 21.5 x 31.5 x 13.5 cm
- Nett weight: 0.89 kg
- Gross weight: 1.23 kg
- Tare weight: 0.34 kg
- EAN: 87 12581 43514 1
- Number of products included: 1
- Packaging type: Carton

## Outer Carton

- Outer carton (L x W x H): 42.5 x 23.2 x 31.2 cm
- Nett weight: 2.67 kg
- Gross weight: 4.22 kg
- Tare weight: 1.55 kg
- EAN: 87 12581 43516 5
- Number of consumer packagings: 3

# Highlights

## 2.4 GHz digital transmission

The 2.4 GHz digital transmission prevents compression and data loss between the transmitter and the headphones. The digital signals are converted to analog signals at the end of the transmission process. The end-result is superb sound quality, with smooth acoustics and minimal data loss.

## True-to-source acoustics

True CD sound quality lets you get the most out of your music enjoyment, thanks to a sophisticated digital transmission process that guarantees no data compression. What you hear is richly detailed and faithful to the original music source.

## Dual antennas

The dual-antenna design ensures that there are no blindspots, regardless of reception angles. The headphones contain two individual antennas, placed in the left and right earshells, for superb wireless music without interruption (no blindspot) and greater freedom of movement.

## Acoustically tuned speakers

Acoustically tuned speakers produce pure, balanced sound with superb clarity and precision in both the high tones and deep bass levels.

## Self adjusting inner headband

The inner headband of these Philips headphones makes it easy to obtain a perfect fit for your head. The mechanism adjusts automatically for comfort.

## Smart and quick charging

The smart and quick charge feature enables the battery to be fully recharged within a very short time span. The remaining power capacity present in the battery is determined by an internal circuit, so that the incoming voltage can be optimized for a quick recharge while at the same time maximizing the battery lifespan.

## Docking station

The docking station provides convenient, tailor-made storage for your receiver when not in use, and on some models, it even takes care of battery charging.
