- Kind of Battery: Rechargeable
- Mains power: AC 100-240V~50/60Hz
- Number of batteries: 2
- Standby time: 150
- Talk time: 12

Highlights

EcoMode: reduced transmission

Since the base station recognizes when the handset is docked on its base, an intelligent embedded system ensures transmitted power is permanently controlled and optimised according to the distance between handset and base unit. It means power emission is automatically reduced by up to 93% when the handset is near its base. When used in Eco Mode, you'll also enjoy a 60% manual reduction of emitted power.

XHD sound

No matter where you are, you can have a phone conversation that is free from noise, with incredible loudness and sound purity in the voice. Thanks to a high-quality speaker, sophisticated technology and to a real acoustic chamber, you can enjoy the unbelievable sound quality in every phone conversation.
