

Philips
CD Soundmachine with
Dynamic Bass Boost

AZ3067

All-in-one, impressive MP3 music with two-way speaker system

Uncomplicated yet comprehensive, this rugged player delivers superb sound performance with quality 2-way speakers. Enjoy your favorite MP3 music(MP3-CD), CD or 30 preset FM stations on the digital tuner in enriched sound - anytime, anywhere

Feature-packed CD player

- MP3-CD, CD-R/RW compatible
- CD Shuffle/Repeat for personalized music enjoyment

Bass sound experience

- Dynamic Bass Boost for deep and dramatic sound
- Two-Way Speaker System for recording studio ambience at home
- Bass Reflex Speaker System delivers a powerful, deeper bass

Easy to use

- Handy remote control
- Line-in connection
- Stereo headphone socket

PHILIPS

Specifications

Sound

- Output power (RMS): 2X2W
- Sound System: Stereo
- Volume Control: Volume Control rotary/encoder
- Loudspeaker types: 2-way Bass Reflex Speaker
- Loudspeaker Enhancement: Piezo
- Speaker diameter: 4"
- Sound Enhancement: Dynamic bass boost 2 steps

Audio Playback

- Loader Type: Top
- Playback Media: CD, CD-R, CD-RW, MP3-CD
- Disc Playback Modes: Fast Forward/Backward, Next/Previous Track Search, Repeat Play, Shuffle Play
- Programmable Tracks: 20
- Number of decks: 1
- Cassette Deck Technology: Mechanical

Tuner/Reception/Transmission

- Auto digital tuning
- Station presets: 20
- Antenna: AM Antenna, FM Antenna
- Tuner Bands: FM, MW

Connectivity

- Aux in: Line in
- Headphone: 3.5 mm

Convenience

- Display Type: LCD
- Remote control: 20 keys

Accessories

- Included accessories: AC Power Cord, User Manual, Warranty certificate

Power

- Mains power
- Battery type: LR20
- Battery voltage: 1.5 V
- Number of batteries: 6

Dimensions

- Packaging dimensions (W x H x D): 493 x 210 x 314 mm
- Product dimensions (W x H x D): 435 x 174 x 263 mm
- Weight: 3.3 kg
- Weight incl. Packaging: 4.4 kg

Highlights

MP3-CD, CD-R/RW compatible

MP3-CD, CD-R/RW compatible

CD Shuffle/Repeat

The "Shuffle/Repeat" function helps you to get rid of the boredom of hearing your music played in the same order all the time. After loading your favorite songs to the player, all you have to do is to select one of the modes - "Shuffle" or "Repeat" for your tunes to be played in different modes order. Enjoy the different and unique music experience every time you hook up to your player.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Two-Way Speaker System

Two-Way Speaker System recreates the ambience and atmosphere of a recording studio in your living room through accurate stereo imaging. Simply "You Are There!". To reproduce the full audio frequency band, conventional speakers need large and small cones to reproduce low and high frequencies respectively. Often sound quality is compromised in favor of smaller design. By using a woofer to reproduce bass to mid frequencies and a tweeter for mid to high frequencies, the Two-Way Speaker System seamlessly plays back the full audio frequency with much less inter-modulation distortion.

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.
