High-resolution audio

High-Resolution Audio offers the best in audio performance, reproducing original studio master recordings more faithfully than 16-bit/44.1-kHz CD formats. This uncompromising quality makes High-Resolution Audio the best sound companion for the music lover. These headphones meet the stringent standards required for the Hi-Res Audio stamp of quality.

2012

iF design awards 2012

Established in 1953, the iF Design Award is the most coveted product design prize today.

Sit back and enjoy all that these headphones have to offer. Floating cushion construction provides a uniquely good fit over the ears, giving you long hours of listening pleasure in undeniable comfort. Superior materials keep the weight of the headphones remarkably low, while maintaining a robust and durable build.
