Virtual 3D cinema sound

- 5.1 channels with wireless subwoofer
- Bottom-firing subwoofer delivers incredible bass
- Dolby Digital Plus delivers high quality cinema sound
- DTS Virtual:X creates 3D surround sound

PHILIPS

Highlights

5.1 channels. Wireless woofer

This phenomenal 5.1 channel soundbar with surround speakers and wireless, bottom-firing subwoofer brings virtual 3D sound direct into your living room. Booming bass, crystal-clear dialogue and superb detail from the comfort of your home!

DTS Virtual:X

DTS Virtual:X technology creates an immersive home theater experience with sound that appears to emerge from all around you. Designed to perform in any room regardless of size, layout, or acoustics, DTS Virtual:X technology enhances content so you can experience your movies, music and games like never before.

Sound leveling technology

This soundbar features special, volume-leveling technology. This will detect the signal from any source via an algorithm and automatically set the output volume to a stable level. Hear your sounds the way they are meant to be heard.

Night mode

This soundbar has been designed with an ingenious night mode. Night mode limits volume spikes, lessens the bass and enhances the dialogue. This allows you to watch or listen late at night without disturbing anyone else!

4 EQ preset modes

Select one of four preset EQ modes to heighten your experience. Stadium EQ Mode immerses you in ambient crowd noise, just like you were sitting in the stadium! Be thrilled by every crucial moment—and still hear crystal-clear commentary.

Connect your favorite sources

Stream playlists from your mobile device via Bluetooth. Your media sounds richer, deeper, and clearer through this phenomenal soundbar and subwoofer. You can also connect via Audio in, optical in or HDMI out (ARC).

Roku TV Ready™

This Philips Soundbar is Roku TV Ready certified. That means you'll enjoy a simple

setup, one remote, and quick settings when you pair it with a Roku TV.
