Wireless Headphone
Active Noise Canceling Slim and lightweight, Multipoint pairing

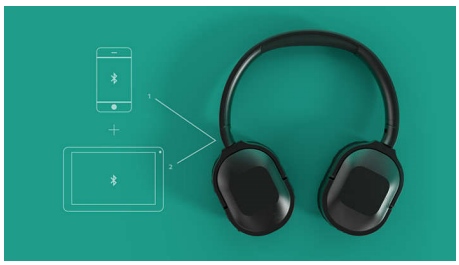
TAH6506BK/00

Highlights

Active noise canceling

Want to reduce noise when you're on the go? Internal mics in the ear cups of these wireless over-ear headphones filter out the engine noise you don't want to hear, so you're free to be with the tunes you love.

Bluetooth multipoint



Streamline your working day. These wireless headphones can connect to two Bluetooth devices at the same time-and switch between them as you need. So you can listen to music from your laptop and take calls from your phone.

30 hours play time

With 30 hours play time from a single charge- or 25 hours with Active Noise Canceling activated-these wireless on-ear headphones are with you all day long. A full charge takes 2 hours. Need an extra boost? 15 minutes charging gives you 2 hours more play time.

Easy control and pairing

Buttons and a dial on the ear cups let you pause your playlist, take calls, control volume, and wake your phone's voice assistant. Calls are nice and clear, and you can pair your headphones with two devices simultaneously.

Easy storage

The ear cups swivel to allow the headphones to fold flat-perfect for storing in your office drawer. Or you can fold them flat and inwards, creating a compact bundle that easily fits into the included soft pouch.
