- Philips handsets: < 0.1 W/kg

## Eco Design

- EcoMode: automatic and manual

## Dimensions

- Base dimensions: TBD (H x D x W)
- Handset dimensions: TBD (H x D x W)

# Highlights

## MySound

Sound perception is subjective and everyone has their individual listening preference, therefore MySound provides you with three distinctly different profiles in your choice of sound to give you the ultimate listening experience: Clear - for making the voices very crisp and clear Soft - for a more friendly and soft voice Warm - for making the voice sound welcoming and warm.

## Handset speakerphone

Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

## Low power consumption: < 0.50 W

Philips phones are energy efficient and are designed to be environmentally friendly. Now, the power consumed in stand-by mode is less than < 0.50 W.
