Product highlights

Plug & Play pack - 2 handsets

A convenient Plug & Play phone package including a base and 2 handsets.

Baby-sit function

Worried about your baby not sleeping? No need to constantly go and check in his bedroom. The baby-sit mode allows you to keep an ear on him wherever you are in the house.

Free intercom

No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

Base and handset TAM control

Just look at the base station to know instantly whether you have received any messages. Listening or deleting messages then become as simple as pressing one key on the base station - for those who never remember where they left their handset.

Specific Outgoing Messages

When you're away or do not wish to be disturbed you

15-minute recording time

250-name-and-number phonebook

No need to try learning the phone numbers of your friends and family. By assigning a name to a number, you only have to search for the name and the number automatically comes with it.

300-hours standby autonomy

Leave your handset off the base for more than 12 days without the need to recharge it. This contributes to make a very environment friendly device.

60-SMS memory

Keep traces of the messages you receive. Thanks to the large onboard storage capacity, you do not need to erase precious messages anymore.

Ringtone download

This function offers the possibility to personalise your phone by downloading ringtones. Simply call the dedicated service provider and select your favourite song. An SMS is sent to you, together with the attached melody. You can select this melody as you would any other ringtones (country and network dependent).

VIP function

Identify who's calling by the ringtone! The VIP icons and melodies indicate to which group in the phonebook the caller belongs. Phonebook entries can be divided in different VIP groups for which you can allocate a specific ringtone.

Personal SMS Boxes

With a personal SMS box, you are assured that nobody except you will read your messages. Your box is protected by a pin-code that you define.
