#### Accessories

Included accessories: AC Power Cord, Quick start guide, Warranty certificate, Safety warranty sheet

#### Display

Backlight: Blue Charging indicator: red

## Highlights

#### Extra bass. 14 hours of play time

With powerful sound and big, pumping bass, this karaoke speaker can fill the room with beats. The built-in battery lets you rock the party outdoors for up to 14 hours of play time on a single charge.

#### **Party-light effects**

Get everyone up and dancing with party-light effects! A ring of coloured lights on the speaker pulses in time to the music, and there are four different lighting modes to choose from. However you love to party, this speaker has you covered.

#### **Mic and guitar inputs**

A mic input (6.3 mm) lets you take the party up a notch. There's also a guitar input, so you can take the lead vocals while you're shredding a solo!

Both guitar and mic have their own volume controls on the speaker. You can change your voice, fade vocals and add echo effects too.

#### All your tunes. Bluetooth

Stream playlists via Bluetooth. Plug in other sources via audio-in or USB—or plug the speaker into another speaker or amp using the line-out socket. Rotary knobs on the speaker let you select the source or even fine-tune the bass and treble.

#### **Ready for anything**

The trolley design with built-in carry handle and battery means you can play music through this speaker wherever you like. Take the beats to a friend's house. Set up on the basketball court. You can skip tracks and turn the volume up directly from the speaker.
