SB3300/12

Highlights

Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

Dynamic room-filling sound

With an advanced digital sound processing algorithm, two active speaker drivers and bass port, this docking speaker fills your room with clear natural sound and deep powerful bass.

USB for second device

For added convenience, this speaker also boasts a USB port for charging a second mobile device even when your iPod/iPhone is docked.

Audio-in

The Audio in connectivity allows direct playback of Audio in content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.
