

Philips  
Sleek DVD micro system

Wireless subwoofer  
wall-mountable

MCD388

## Obsessed with sound

Sound that fits your home

Experience audio and video like never before with the wall-mountable, Philips sleek DVD micro system. Playback from multiple sources. Full High-Definition Multimedia Interface (HDMI) produces sharper images.

### Enrich your sound experience

- Digital wireless subwoofer for powerful bass
- Digital Sound Control for optimized music style settings
- Loudness for bass and treble enhancement
- Dynamic Bass Boost for deep and dramatic sound
- 100W RMS total output power
- USB Direct and SDHC card slots for music and video playback
- MP3 Link for portable music playback

### Enrich your movie experience

- Play DVD, DivX®, (S)VCD, MP3-CD, WMA-CD, CD(RW) & Picture CD
- Dolby Virtual Speaker for theater audio experience
- HDMI 1080p upscales to high definition for sharper pictures

### Design that blends into your interior

- Wall-mountable option for flexible placement

# Highlights

## Play DVD, DivX & MP3/WMA-CD

The Philips player is compatible with most DVD and CD discs available in the market. DVD, DivX<sup>®</sup>, (S)VCD, MP3/WMA-CD, CD(RW) and Picture CD - all of them can play on the player. SVCD stands for "Super VideoCD". The quality of a SVCD is much better than a VCD, especially much more sharpen picture than a VCD because of the higher resolution. With DivX<sup>®</sup> support, you are able to enjoy DivX<sup>®</sup> encoded videos. The DivX media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, and DVD recordable discs.

## Digital wireless subwoofer

The digital wireless subwoofer is optimized to reproduce bass frequencies. The result is a powerful reproduction of deep bass with the minimum of distortion.

## Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

## Loudness

In the sound spectrum, high and low frequencies are relatively less audible to human ears - especially at low volumes. By activating the Loudness feature, the bass and treble will be amplified so you can savor a more balanced sound perception overall.

## Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

## 100W RMS

This system has 100W RMS total output power. RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

## Wall-mountable

The perfect combination of a slim and versatile design, your Philips audio system is cleverly designed to blend into your living space. The base of the audio system is a stand so the system can sit securely and nicely on any shelf or cabinet. When wall mounted you have all the same flexibility of the freestanding stand.

## Dolby Virtual Speaker

Dolby Virtual Speaker is a sophisticated audio virtualization technology that produces rich and immersive surround sound from a two-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. DVD playback is enhanced by expanding the 2-channel environment. When combined with Dolby Pro Logic II processing, any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

# Specifications

## Sound

- Sound enhancement: digital sound control 4 modes, Dynamic Bass Boost, loudness, class "D" digital amplifier, Dolby Digital, Dolby virtual speaker
- Output power: total 100 W RMS, 2 x 20 W RMS + 60 W

## Loudspeakers

- No. of built-in speakers: 2
- Speaker drivers: 3" woofer
- Subwoofer types: active
- Speaker types: bass reflex speaker system

## Video Playback

- DVD region code: 2
- Playback media: DivX, DVD-Video, video CD/SVCD, picture CD, DVD+R/+RW, DVD-R/-RW
- Disc playback modes: A-B Repeat, angle, PBC, Zoom, parental control, disc menu, fast backward, fast forward, OSD, slow motion, resume playback from stop

## Picture/Display

- Picture Enhancement: high def (720p, 1080i, 1080p), video upsampling, video upscaling

## Audio playback

- Playback media: CD, CD-R, CD-RW, MP3-CD, WMA-CD, SD/MMC card, USB flash drive
- Disc playback modes: fast forward/backward, next/previous track search, repeat/shuffle/program
- Others: ID3-tag support
- USB Direct playback modes: fast backward/fast forward, play/pause, previous/next, program play, repeat, shuffle, stop

## Tuner/Reception/Transmission

- Tuner bands: FM stereo
- RDS: station name, RDS clock set, program type
- Station presets: 20
- Antenna: FM antenna
- Tuner enhancement: auto digital tuning, auto scan

## Connectivity

- Audio/Video output: component video out, composite video (CVBS) out, digital audio coaxial

- out, HDMI out, Headphone (3.5mm), S-Video out
- Aux in: 2xRCA (Audio)
- MP3 Link: 3.5mm stereo line in
- USB: USB host

## Convenience

- Alarms: CD alarm, radio alarm, USB alarm
- Clock: on main display, sleep timer
- Loader type: motorised, slot
- Display enhancements: DIM mode
- Display type: VFD display
- On-Screen display languages: Dutch, English, French, German, Italian, Portuguese, Spanish, Swedish, Turkish
- Wall mountable / Ceiling Throw: wall mountable

## Accessories

- Cables/Connection: composite video cable (Y), MP3 Link cable, power cord, SCART adapter
- Remote control: 40-key with lithium battery
- User Manual: multi-languages
- Others: FM antenna, Quick start guide
- Warranty: World Wide Guarantee booklet

## Dimensions

- Gross weight: 8 kg
- Packaging depth: 250 mm
- Main unit depth: 120 mm
- Packaging height: 350 mm
- Main unit height: 235 mm
- Packaging width: 565 mm
- Main unit width: 525 mm
- Subwoofer depth: 300 mm
- Subwoofer height: 195 mm
- Subwoofer width: 170 mm

## Power

- Power supply: 50/60 Hz
- Power supply: 110 - 240 V

## Green

- Eco Power standby: 1 W

## Digital photo playback

- Playback media: CD-R/RW, DVD+R/+RW, picture CD
- Picture Compression Format: JPEG
