Natural, true-to-life sound

Obsessed with sound

Indulge in pristine sound filled with true-to-life details, delivered by ClariSound. Encased in aluminum, this stunning set plays and charges iPod/iPhone/iPad. It also plays CDs and DVDs, upscaling movies to HDMI 1080p for sharp images.

Enrich your sound experience

- ClariSound for pristine sound with true-to-life details
- Top mounted tweeter for detailed and natural sound
- Glass fiber woofer for natural reproduction of sound
- Innovative bass port to deliver pure and rich bass
- Gold-plated speaker connector for finest signal transmission
- 160W RMS total output power

Enjoy your music and movie from multiple sources

- Play and charge your iPod/iPhone/iPad
- Play DVD, DivX® Ultra, MP3/WMA-CD, CD and CD-RW
- HDMI 1080p upscales to high definition for sharper pictures
- Dolby Digital for ultimate movie experience
- USB Direct for music and photo playback

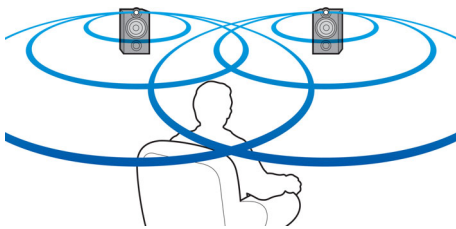

Premium finishing with noble materials

- Aluminum cabinet for quality look and feel

PHILIPS

Highlights

ClariSound

ClariSound breathes new life into your favorite music with pristine and detailed sound laced with warmth and texture. A top-mounted tweeter delivers sound enriched with brilliant clarity while a super-efficient glass fiber woofer cone ensures a wide sound stage to fill any room. The pure sound performance is balanced with deep well-defined bass, thanks to Philips' innovative bass port technology. A soft dome ensures true-to-life reproduction of voice and instrument details so you can appreciate all the dynamic and emotive nuances of the original production.

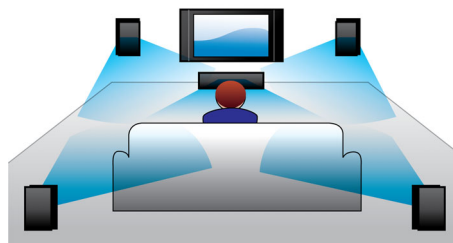

Gold-plated speaker connector

The Gold-plated speaker connector ensures better audio signal transmission compared to traditional click-fit connections. It also

minimizes the electrical signal loss from the amplifier to the speaker box, resulting in sound reproduction that's as close to reality as possible.

Dolby Digital

Because Dolby Digital, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.

HDMI 1080p

HDMI 1080p upscaling delivers images that are crystal clear. Movies in standard definition can now be enjoyed in true high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan

(represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multichannel audio, without conversions to analog - delivering perfect picture and sound quality, completely free from noise.

Play & charge iPod/iPhone/iPad

Enjoy your favorite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favorite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

Specifications

Sound

- Output power (RMS): 2 x 80W
- Sound System: Dolby Digital
- Sound Enhancement: Class "D" Digital Amplifier, Treble and Bass Control, Loudness

Loudspeakers

- Loudspeaker types: Dome tweeter
- Main Speaker: 5.25" woofer, 2 way, Bass Reflex Speaker System, Speaker grilles detachable
