# Highlights

## Plug & Play pack - 2 handsets

The unique soft touch feel ensures that the phone lies perfectly within your hand and increases comfort while calling.

## Free intercom

No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

## Large Colour Display

The colour display adds more fun and excitement by enriching features and user operations. Colours make your phone easier to use. The menus are easily read and icons are easily identified.

## Icon-based menu

Each major menu function is represented by a dedicated and colorful animated icon, placed in a carousel for easy navigation.

## Embedded Games

Your phone comes with built-in games for you to play while enjoying your bright color screen

## SIM-Card reader

You've got a mobile full of numbers and you don't want to input them all one-by-one in your home telephone? Then the SIM-Card reader is for you! In a matter of seconds, you have transferred your whole mobile-phonebook into your home telephone.

## Send & receive SMS

The SMS is a simple way to exchange information over the telephone line. You first type your text off-line and when you are ready, you send it to as many people as like.

## Selectable wallpapers

An illustration is worth more than a thousand words. Scroll through the selection of images integrated into the handset. Select the one that best suits your mood of the day and have it displayed as a background on your screen.

## Handsfree on Handset

The handsfree speaker phone lets you hold a conversation while your hands are busy with something else and wherever you are. With both the speaker and the microphone in front of the handset, it is just like talking face to face with your correspondent.

## Polyphonic ringtones

A polyphonic ringtone means that the phone can play many tones simultaneously, so that an accurate musical performance is possible, and when played through the phone's speaker these polyphonic ringtones sound like real music.
