Highlights

Every trip. 30 hours of play time

On any trip, these headphones are up to the task. A single charge takes just 2 hours. You get 30 hours of play time (or talk time) with Active Noise Cancelling off, and 25 hours with it on. Two levels of fast charging—Rapid Charge and Quick Charge—give you an extra 2 or 6 hours of play time.

Music. Or silence.

Leave it all behind with Active Noise Cancelling. Shut out the noise of a train or busy office at the touch of a button. If you're out and about, you can listen to your music and stay tuned to the noise of the street in Awareness Mode.

Perfectly tuned comfort

From playlist to podcast, perfectly tuned neodymium acoustic drivers deliver deep bass and clear mid-range frequencies. Soft ear-cup cushions cover your whole ear, creating a seal that passively isolates external noise. The headband is light, easily adjustable and smooth: there'll be no getting these headphones tangled in your hair.

Flexible design

These wireless headphones boast soft ear-cups that fold neatly in two configurations. You can fold them flat, perfect for storing in your office drawer or the included carrying pouch. Or you can fold them flat and inwards, creating a compact bundle that fits into coat pockets and bags.

Hi-Res Audio

Twinkling pianos. Blistering rock. Whatever you love, Hi-Res Audio headphones let you feel the full impact of every note. When wired to a Hi-Res source, you'll get the full benefit of lossless audio that's recorded at a higher sample rate than CDs for a brilliantly lifelike performance.

Smart. At a touch.

Control volume by swiping up or down on the ear-housing touch control panel. You can activate or deactivate Active Noise Cancelling with a single tap or engage Awareness Mode to hear more of the world around you while the music keeps playing. The built-in mic with echo cancellation keeps sound clear when you're talking.

Voice Assistant

Manage your life without taking out your phone. A simple touch on the headband activates Voice Assistant. You can ask it to open your calendar, read notifications from your phone, call or send messages to friends, manage playlists and much more.
