- HDMI eARC. Enjoy Dolby Atmos and DTS:X audio formats
- Spotify Connect. Bluetooth. Apple AirPlay 2. Optical-in

A seamless experience

- Easily connect to your favorite sources
- Connects to your favorite voice assistant-enabled devices
- 4K pass-through. Dual HDMI inputs

PHILIPS

Features

Effortless connection

With a Philips Fidelio soundbar, nothing comes between you and the moment. Whether it's the removable rear speakers, which can be clicked on or off in seconds on movie night. The seamless way you can switch between all your favorite sources. Or the low profile for easy placement. Just unbox, plug in, and relax.

Feel the drama

This soundbar creates an unforgettably immersive experience. 7.1.2 channels fill any room with rich, deep soundtracks, thunderous effects, and sparkling dialogue. The wireless subwoofer adds impact to every explosion and every beat.

Surround sound on demand

Want to fully immerse on movie night? Simply remove the detachable speakers from the ends of the soundbar and place them behind you to create a true surround-sound setup. The dedicated center channel ensures you'll hear every word—from blockbusters to podcasts.

Dolby Atmos and Dolby Surround

Get the full Dolby Atmos experience from this soundbar's up-firing speakers. Your favorite movies and shows will sound breathtakingly realistic as sound

flows above and around you. If you're watching non-Atmos content, the soundbar switches to Dolby Surround.

IMAX Enhanced

This powerful soundbar is certified IMAX Enhanced, which means it's capable of delivering an audio experience that truly takes you to another world. The 240 W subwoofer looks great freestanding, and the soundbar itself has a low profile for simple placement.

Play-Fi. Multi-room and more

DTS Play-Fi compatibility makes this premium Fidelio soundbar a powerful component in a multi-room audio setup. You can easily sync and group Play-Fi-compatible speakers, and stream playlists to every room in high-quality audio without dropping a beat.

All your favorite sources

For music, Spotify Connect lets you stream Spotify's best-quality signal over Wi-Fi. You can also stream hi-res playlists from your mobile device via Apple AirPlay 2 or Bluetooth. For movies and gaming, 4K pass-through lets you connect 4K HDR video sources with no loss of resolution.

Connect with voice assistants

Ask Alexa-enabled devices, or any speaker that works with the Google Assistant, to play music through the soundbar. Prefer Siri? This soundbar works with Apple AirPlay 2, so you can ask her too. Turn the music up. Skip tracks. All completely hands-free.
