Product highlights

SuperScroll™ navigation
Double action search keys allow easy speed control when scrolling through large libraries. You can choose to move through your play list one song at a time or just press and hold down a little harder to SuperScroll™ swiftly to your desired track.

SuperPlay™
SuperPlay™ lets you start enjoying your music quickly without the hassle of first selecting play lists or individual tracks. You can listen to all the music under top level music library categories, such as Artists or Albums, by simply highlighting the category and pressing the Play button. The jukebox plays all the music according to the category sort order. You can also combine SuperPlay™ with Shuffle and Repeat to further enhance your music enjoyment.

Firmware upgradeable
Stay up to date with the latest firmware upgrades from Philips. Improvements such as new features, functions and media formats are made available constantly to provide you the best experience with Philips products. Philips online support site easily provides automatic and timely updates via email. So you can easily search and download new firmware releases to update your product with new features, functions and media formats. Download the latest upgrades from www.philips.com/ support and upgrade your player with latest firmware.
