Every picture tells your story

How many digital pictures are hidden on your PC? See, share, organize and relive your memories with Philips PhotoFrame™, the easiest way to display your digital photos in stunning quality - without a PC.

Top quality display for print-like pictures

- High pixel density for sharp and detailed photo display
- Display all the crisp colors of professional printed photos

Luxurious design to complement your photos

- Exquisite materials and finishing add value to your photos
- Four swappable frames to fit your decor and personal taste

Easily display and manage your digital photos

- Play slideshows, single photo, thumbnails or show clock
- Display and manage photos on memory cards or internal memory
- Create albums, slideshows and manage your photos
- Rotate, zoom, crop, mask and add effects to your photos

Simple intuitive operation and great convenience

- USB connector for easy photo downloading from your PC
- Operate on AC power or cordlessly with rechargeable battery
- Auto on/off display at pre-set times for power saving

PHILIPS

Highlights

High Pixel Density Display

The very best high density screen shows off your treasured photos with the same 'real life' rich detail and vibrant colors as high quality prints.

Rich, vibrant colors

Full color display brings out the best in your photos with vibrant, real life colors by displaying the same full range of colors found in professionally printed photos.

Quality design and materials

High quality design and exquisite materials include a solid stylish stand, designer frame and detailed finishing that convey an impression of value and refined taste, adding luster to the photos displayed on PhotoFrame.

Interchangeable frames

A selection of interchangeable frames that snap onto your PhotoFrame fits your personal taste and compliments your home or office decor.

Multiple viewing modes

Flexible display modes give you the freedom to display your photos one image at a time, in thumbnail mode for quick, easy searches, or to create a slideshow of your most treasured photos.

Memory-Card Manager

Memory-Card Manager is a set of two built-in memory card readers and featured software for displaying, editing, storing and organizing your memory card photos directly in one, hassle-free step - all without a PC.

Smart Album

Smart Album allows you to create and manage albums, as well as to set up and adjust transition effects to your photo slideshows.

PhotoEffect Wizard

The PhotoEffect Wizard is an easy-to-use feature that allows you to rotate, zoom in,

crop and even adjust photo color tones to black & white or sepia right within PhotoFrame.

Easy USB connectivity

A USB connector is built into the device for easy and quick downloading photos from a PC.

Run on built-in battery or AC

AC or onboard battery power give you the choices of operating your PhotoFrame on standard AC power or cordlessly with the onboard rechargeable battery.

Auto on/off display

A timer turns PhotoFrame on and off at the hours you select, reducing energy consumption for the sake of our environment saving up to one third of your PhotoFrame energy costs.
