Highlights

Holds power for up to 10 years

Every battery suffers from energy loss when not in use. We guarantee that the battery contains at least 80% of its initial energy within the best before date.

132% more power

Philips AA Ultra Alkaline batteries have 132% more power than industry standard

Cadmium, Mercury and Lead-free

These Philips batteries are guaranteed free from harmful heavy metals such as Cadmium, Mercury and Lead.

Language-free symbols

Universal language-free symbols on the packaging explain how and where the battery can or should be used.

Complete range

Philips offers a complete portfolio consisting of the most frequently used batteries (AA, AAA, C, D, 9V) in different packaging variations in order to meet your needs.

Easy colour-coding

To make it easier to recognise the most common battery sizes, we use colour-coding for battery sizes according to industry standards.
