Highlights

Twin front-firing speakers

EverPlay speaker makes no compromises when it comes to quality sound. With two front-firing neodymium drivers, it delivers clear, natural, powerful sound with deep and rich bass. Perfect for any style of music, whether you're playing it loud for a party or enjoying a quiet, mellow moment.

Digital Sound Processing

Advanced sound processing technology enhances the reproduction of your music so that each note resonates with crystal-clear accuracy, and each pause is sealed with pristine silence. Philips' proprietary Digital Sound Processing technology optimises the performance of compact speakers, delivering sound that is clear, detailed and powerful without any distortion.

Wireless music streaming

Bluetooth is a wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other

Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

30m Bluetooth range

Move freely around with your smart phone, without worrying about dropping your music. EverPlay speaker offers an incredibly stable and long-range Bluetooth connection up to 30 metres or 100 feet, three times faster than industry standards. The speakers are equipped with a sensitivity antenna and radio frequency filter to minimize background interference.

100-hr standby time

EverPlay's intelligent standby mode gives you an incredible 100 hours of standby time and the speaker can be woken from power-off mode simply by your smart device.

Built-in microphone

With its built-in microphone, this speaker also works as a speaker phone. When a call comes in, the music is put on pause and you can talk

via the speaker. Call for a business meeting. Or, call your friend from a party. Either way, it works great.

Quick charging

Charging the speaker takes quite some time usually. EverPlay offers a quick charge option that can recharge the speaker three times faster than normal USB adapter. By using Qualcomm Quick-Charge adapter (not included), that is commonly used in new Android phones, to charge the speaker, the charging time is much faster.

Battery indicator

Finally, a Bluetooth speaker that provides a simple, clear way to see how much remaining power you have! With EverPlay, simply push the power button to see how much battery is left.

USB strap

Recharging has never been so easy. When the power starts to run low, use the handy two-in-one strap-USB charging cable. Plug it in for power, or use it to attach the speaker to a bag for easy portability.

Specifications

Sound

- Output power (RMS): 2 x 7W
- Sound System: Stereo

Design and finishing

- Color: Black

Loudspeakers

- Speaker drivers: 2 x 1.5" full range driver and 2 x 2.25" passive radiator
