CD Soundmachine with
Dynamic Bass Boost

AZ1220

Enriched Base Sound

You take pleasure in the simple things in life and delight in convenience. The sleek and portable AZ1220 lets you indulge in the pleasures of enjoying your favorite music in enriched bass sound with the help of easy-to-use functions.

Enhanced bass performance

- Bass Reflex speakers deliver a powerful, deeper bass
- Dynamic Bass Boost for deep and dramatic bass
- 4" full range speakers

Enjoy favorite music from three different sources

- Compatible with CD-Recordable and CD-ReWritable
- FM/MW stereo tuner
- Autostop stereo cassette deck

Easy to use

- CD to tape synchro-start recording
- Multi-functional LCD display
- Stereo headphone socket

PHILIPS

Specifications

Sound

- Loudspeaker types: Bass Reflex Speaker System
- Output power (RMS): 2X1.2V
- Sound Enhancement: Dynamic Bass Boost
- Sound System: Stereo
- Speaker diameter: 4"
- Volume Control: rotary

Loudspeakers

- Built-in speakers: 2
- Finishing: Metal
- Loudspeaker types: Loudspeakers

Audio Playback

- Cassette Deck Technology: Mechanical
- Playback Media: CD, CD-R, CD-RW
- Disc Playback Modes: Fast Forward/Backward, Next/Previous Track Search, Repeat Play, Shuffle Play
- Loader Type: Top
- Number of decks: 1
- Programmable Tracks: 20

Tuner/Reception/Transmission

- Antenna: AM Antenna, FM Antenna
- Auto digital tuning: no
- Tuner Bands: FM, MW

Connectivity

- Headphone: 3.5 mm

Convenience

- Display Digits: 4
- Display Type: LCD

Accessories

- Included Accessories: AC Power Cord, User Manual, Warranty certificate

Dimensions

- Packaging dimensions (W x H x D): 470 x 210 x 290 mm
- Product dimensions (W x H x D): 400 x 162 x 238 mm
- Weight: 2.9 kg
- Weight incl. Packaging: 3.7 kg

Power

- Battery type: LR14
- Battery voltage: 1.5 V
- Mains power
- Number of batteries: 6

Highlights

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

4" full range speakers

4" full range speakers

CD-R/RW Compatible

CD-Rewritable Compatible means that your audio set can play both CD-Recordable (CD-R) and CD-Rewritable (CD-RW) discs. CD-R discs are recordable once and can be played on any audio CD player while CD-RW discs can be recorded and rewritten multiple times and can only be played back on compatible audio CD players. The laser pick-up and CD decoder circuitry of CD-RW compatible players are specially designed to read the special audio CD-RW phase-change recording layer, ensuring you can always play your home-recorded discs on your audio CD system.
