- Kind of Battery: Rechargeable
- Mains power: AC 220-240V - 50Hz
- Number of batteries: 2 per handset
- Standby time: Up to 170 hours
- Talk time: Up to 14 hours

Highlights

Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

XHD sound

No matter where you are, you can have a phone conversation that is free from noise, with incredible loudness and sound purity in the voice. Thanks to a high-quality speaker, sophisticated technology and to a real acoustic chamber, you can enjoy the unbelievable sound quality in every phone conversation.

Leather finished handset

The genuine leather finishing on the back of the handset adds the extra touch of luxury to an already exclusive design.

Touch-sensitive keys on base

No need to press hard on a key anymore; a light touch on a touch sensitive key suffice to register your input.

Unique white-on-black display

Apart from its fantastic appearance, the high contrast of a white-on-black display uniquely enhances readability.
