1 Important

Safety

- Only use attachments/accessories specified by the manufacturer.
- Use only power supplies listed in the user manual.
- The product shall not be exposed to dripping or splashing.
- Do not place any sources of danger on the product (e.g. liquid filled objects, lighted candles).
- Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- Where the plug of the Direct Plug-in Adapter is used as the disconnect device, the disconnect device shall remain readily operable.

A

Warning

- · Never remove the casing of this apparatus.
- Never lubricate any part of this apparatus.
- Never place this apparatus on other electrical equipment.
- Keep this apparatus away from direct sunlight, naked flames or heat.
- Ensure that you always have easy access to the power cord, plug or adaptor to disconnect the apparatus from the power.

Notice

Any changes or modifications made to this device that are not expressly approved by WOOX Innovations may void the user's authority to operate the equipment.

Care of the environment

Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

Do not throw away the product with the normal household waste at the end of its life, but hand it in at an official collection point or recycling. By doing this, you help to preserve the environment

Environmental information

All unnecessary packaging has been omitted. We have tried to make the packaging easy to separate into three materials: cardboard (box), polystyrene foam (buffer) and polyethylene (bags, protective foam sheet.) Your system consists of materials which can be recycled and reused if disassembled by a specialized company. Please observe the local regulations regarding the disposal of packaging materials, and old equipment.

Trademark notice

8 Troubleshooting

Warning

· Never remove the casing of this apparatus

To keep the warranty valid, never try to repair the system yourself.

If you encounter problems when using this apparatus, check the following points before requesting service. If the problem remains unsolved, go to the Philips web site (www. philips.com/support). When you contact Philips, ensure that the apparatus is nearby and the model number and serial number are available.

No sound or poor sound

- Adjust the volume on the docking speaker.
- Adjust the volume on your iOS device,
 Bluetooth device, or other external device.

No response from the pressing of the keys on the speaker

- On the docking speaker, press of and simultaneously for 3 seconds. You can restore the factory settings of the docking speaker.
- Disconnect and reconnect AC power, and then, switch on the docking speaker again.

About Bluetooth connection

Cannot play music from my Bluetooth device even after successful Bluetooth connection

 The Bluetooth device cannot work with the speaker to play music.

The sound quality is poor when I play music from a Bluetooth device.

 The Bluetooth reception is poor. Move the Bluetooth device closer to the speaker or remove the obstacles between the Bluetooth device and the speaker.

Cannot connect my Bluetooth device with the speaker

- The Bluetooth device does not support the profiles that are required for the speaker.
- The Bluetooth function of the device is not enabled. Refer to the user manual of the device on how to enable the Bluetooth function.
- The speaker is not in the pairing mode.
- The speaker is already connected with another Bluetooth device. Switch off the Bluetooth on that device and try again.

The paired device connects and disconnects constantly.

- The Bluetooth reception is poor. Move the Bluetooth device closer to the speaker or remove the obstacles between the Bluetooth device and the speaker.
- On some devices, the Bluetooth connection can be deactivated automatically for power-saving.
