

Philips Heritage Audio
Component Hi-Fi system

Silk dome tweeter
100W

MCM772

Obsessed with sound

Enjoy high fidelity music

Immerse yourself in audiophile quality sound with the Philips component hi-fi system that features a silk dome tweeter. Plus, elegant wooden speakers and an aluminum cabinet enhance the sound quality, while ensuring precision and control.

Enrich your sound experience

- Silk dome tweeter for crystal clear sound
- Gold-plated speaker connector for finest signal transmission
- Wooden speakers for great natural sound
- Treble and Bass Control for easy high and low tone settings
- Loudness for bass and treble enhancement
- 100W RMS total output power

Enjoy your music from multiple sources

- Play MP3/WMA-CD, CD and CD-RW
- USB Direct for MP3/WMA music playback

Design that blends into your interior

- Aluminum cabinet for quality look and feel
- High-end component design with stand

PHILIPS

Highlights

Play MP3/WMA-CD, CD and CD-RW

Audio compression technology allows large digital music files to be reduced up to 10 times in size without radically degrading their audio quality. MP3 or WMA are two of the compression formats that let you enjoy a world of digital music on your Philips player. Download MP3 or WMA songs from authorized music sites on the Internet or create your own MP3 or WMA music files by ripping your audio CDs and transferring them onto your player.

Aluminum cabinet

Aluminum die casting is lightweight and can withstand the higher temperatures environments, they offer high strength and rigidity along with good corrosion resistance.

Silk dome tweeter

A silk dome tweeter holds a diaphragm made with silk - a material superior to the others that is used in ordinary tweeters. The silk material used in the diaphragm has superior

sound damping characteristics and its soft texture ensures minimal acoustic breakup. As a result, the sound produced by a silk dome tweeter is smooth, warm and has a wide range.

Gold-plated speaker connector

The Gold-plated speaker connector ensures better audio signal transmission compared to traditional click-fit connections. It also minimizes the electrical signal loss from the amplifier to the speaker box, resulting in sound reproduction that's as close to reality as possible.

Wooden speakers

Nature provides us with the best. Not least of all is wood. Wood is found to possess acoustic characteristics that makes it uniquely perfect for use in sound equipment and instruments. Fine musical instruments such as pianos and violins are made of wood for good reason - the same reason these speakers are also encased in wood. Bask in a rich and realistic listening experience delivered by these wooden speakers.

Treble and Bass Control

Treble and bass are equalizer features that control the high and low frequency sound levels of your audio respectively. Treble specifically regulates the amplification of the high tones in the music while bass controls the

amplification level of the low tones. Using the up and down keys, the listener can conveniently place more or less emphasis on the low and high tones, or leave treble and bass flat to playback music according to its original recorded setting. Treble and Bass Control lets you listen to your music the way you like it.

Loudness

In the sound spectrum, high and low frequencies are relatively less audible to human ears - especially at low volumes. By activating the Loudness feature, the bass and treble will be amplified so you can savor a more balanced sound perception overall.

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

Specifications

Sound

- Output power: 2 x 50 W RMS / 2 x 100 W music power
- Sound enhancement: loudness, digital sound control 4 modes, Dynamic Bass Boost, treble and bass control

Loudspeakers

- Speaker drivers: 4" woofer, cone dome tweeter
- Loudspeaker enhancement: 2-way, gold-plate speaker connectors, speaker grilles detachable

Audio playback

- Playback media: WMA-CD, MP3-CD, CD-RW, CD-R, CD
- Disc playback modes: repeat/shuffle/program
- USB Direct playback modes: fast backward/fast forward, play/pause, previous/next, program play, repeat, shuffle, stop

Tuner/Reception/Transmission

- Station presets: 20
- Tuner bands: FM stereo
- Antenna: FM antenna
- RDS: radio text, RDS clock set, station name
- Tuner enhancement: auto digital tuning, auto scan

Connectivity

- Audio/Video output: 2xRCA (Audio), Headphone (3.5mm)
- Aux in: 2xRCA (Audio)
- USB: USB host

Convenience

- Alarms: CD alarm, radio alarm, USB alarm
- Clock: on main display, sleep timer
- Loader type: motorised, tray
- Display enhancements: DIM mode
- Display type: VFD display

Accessories

- Remote control: 40-key with lithium battery
- Others: FM antenna, Quick start guide
- User Manual: multi-languages
- Warranty: World Wide Guarantee booklet

Dimensions

- Gross weight: 10 kg
- Main speaker dimensions (W x D): 140 x 250 mm
- Main speaker height: 210 mm
- Main unit depth: 280 mm
- Packaging width: 560 mm
- Main unit height: 150 mm
- Packaging height: 310 mm
- Main unit width: 160 mm
- Packaging depth: 275 mm

Power

- Power supply: 50 Hz
- Power supply: 220 - 240 V

Green

- Eco Power standby: 1 W
