- Fullsound™ to bring your MP3 music to life
- 40W RMS total output power

Advanced versatility

- SoundStudio app for complete control of audio settings

PHILIPS
Fidelio

Highlights

Play & charge iPod/iPhone/iPad

Enjoy your favorite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favorite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

wOOx™ Technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise base without noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

AirPlay Wireless Technology

AirPlay lets you stream your entire iTunes music collection to your Philips Fidelio docking

stations. It plays wirelessly from the iTunes program on your computer, iPhone, iPad or iPod Touch - to any AirPlay-enabled speaker in your home. All you have to do is ensure your speakers are connected to your Wi-Fi network. AirPlay also lets you play simultaneously on every speaker in every room. Get your favorite tunes to follow you whichever room you go.

One step AirPlay setup

With the incredibly simple one step AirPlay set up, your wireless speaker will be connected easily with your home network. Simply connect the speaker with your iPod touch, iPhone, iPad with 30-pin cable or docking connector, press the Wi-Fi set up button and with just one click to allow Wi-Fi set up sharing on your Apple device, you're ready to rock!
