· Watch up to 16 monitors with one app on your iPhone/iPad
· Encrypted direct networking for secure connection

Alerts via push notifications
· Recordings uploaded to your private Dropbox account
· Built-in noise and motion detection
· Phone alerts when monitor detects noise/motion

Highlights

Wi-Fi enabled

The InSight wireless home monitor is a Wi-Fi-enabled monitor. It uses your home wireless network to stream live video and audio with monitors that you can set up anywhere you like.

Instant monitoring

Once you have set up your InSight wireless home monitor on your local network, you can access the video stream from your iPhone or iPad anywhere in the world over Edge, 3G and wireless networks instantly. There's no limit to where and how you view your video.
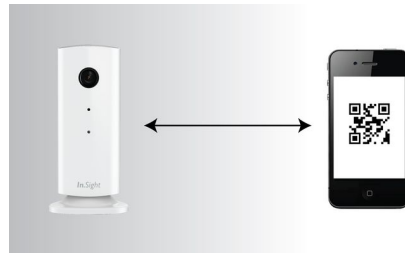

InSight app for Apple

The Philips InSight wireless home monitor is a cutting-edge app-based wireless video monitor that lets you see and hear what's happening at home, from anywhere in the world. Completely free, the dedicated InSight app can be downloaded from the App Store directly from your iPhone or iPad.

Browser-based monitoring

The InSight wireless home monitor also allows you to find out what's going on at home in real time from your favourite web browser, be it Chrome, Internet Explorer, Safari or Firefox, on a PC or Mac.

Easy setup

Quick and easy set-up allows you to pair the InSight wireless home monitor with an iPhone or iPad. Place the QR code image in front of the monitor lens to activate the InSight app. The monitor is ready to use when the light turns solid green.

Watch up to 16 monitors

With one app, you can watch up to 16 Philips InSight wireless home monitors. Place as many monitors as you like, anywhere you like.

Direction adjustable

The Philips InSight wireless home monitor has a magnetic base that holds the monitor, allowing you to rotate and adjust your monitor to any angle.

Extra wall mount

In.Sight wireless home monitor comes with a wall mounting bracket. Use it to easily mount your monitor to any wall or ceiling. The base itself pivots and turns, so you can still reposition the In.Sight wireless home monitor when it is mounted.

Encrypted direct networking

The Philips InSight wireless home monitor uses highly secure encryption to provide you with privacy at all times. The InSight wireless home monitor uses a unique encryption key each time it makes a connection.

Noise and motion detection

It's impossible to predict when something might happen. The InSight wireless home monitor keeps watch with adjustable noise and motion detection. You will be alerted any time noise or motion is detected.

* Viewing live video over your home Wi-Fi network using
the In.Sight wireless home monitor is free and
unrestricted. Viewing live video remotely (either over an
external Wi-Fi network or 3G network) is also free for
unlimited sessions, but subject to a limit of 5 minutes
per session.
* Longer remote viewing session times and other
premium features are available for purchase from the
App. These conditions are subject to change.
