Highlights

All-in-one design

All-in-one design fits any space, any lifestyle

Handles and wheels

Bring massive sound wherever you need it, upstairs, downstairs, indoors or out. NITRO audio solutions slip smoothly into any home thanks to their optimized footprints and clutter free, convenient controls integration. Link them up with your TV or PC to supersize your experience and make music and movies sound bigger than ever. Or move them outside using built-in handles and wheels to turn them into the ultimate outdoor party sound system.

Karaoke with dual mic input

Karaoke with dual mic input

Sing it. Play it.

Mic and guitar inputs (6.3 mm) let you take the party up a notch. Sing to a playlist, or rock out to your own playing. You can even fade out the vocals of a song you're singing along to, so only your voice is heard. Fun karaoke effects give you the ability to add echo to the vocals, or switch vocal sounds from female to male and back again!

Blaze to the music

Get everyone up and dancing with party light effects. Colored lights on the speakers pulse in time to the

music, flash in different orders, or stay on in a steady glow.

Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

USB Direct and SD card slots

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct and SD card slots.
