A seamless experience

- Intelligent bass. Immerse more. Hear more
- Optimises performance of certain Philips TV and audio
- Philips Wireless Home System powered by DTS Play-Fi
- RCA connection. Connect to multi-channel amps and more

PHILIPS

Wireless subwoofer
420 W max. 8" woofer Dual wOOx passive radiators, Philips Wireless Home System, Sustainable Muirhead leather

Highlights

TAFW1/10

Spine-tingling bass

The Fidelio FW1 subwoofer brings spine-tingling bass to movies, shows and music. A down-firing woofer and advanced dual passive-radiator design ensure that rich, perfectly timed low frequencies fill any room. You'll add a whole new dimension to everything you watch—or listen to.

Head-turning looks

This head-turning FW1 subwoofer beautifully matches the Fidelio FB1 soundbar. The bevel is trimmed in anthracite Muirhead leather, while the top surface is made of brushed metal. The visible elements of the twin passive radiators are detailed with metallic material, which softly catches the light.

Philips Wireless Home System

The Play-Fi-compatible FW1 subwoofer lets you build your perfect home-cinema sound. Connect to a Fidelio soundbar to deepen the impact of movies and music with perfectly controlled bass—free from distortion, even at high volume. Add paired wireless speakers and create a true surround-sound setup.

Intelligent bass

Good things happen when this Fidelio FW1 subwoofer is paired with a Philips soundbar, speakers or TV*. The sub recognises what it's paired with and automatically takes control of the lowest frequencies, freeing paired components to concentrate on mids and highs. The result: even more richness and detail.

RCA connection

Connect this FW1 subwoofer to your existing home-cinema setup, or connect with non-Play-Fi-compatible TVs via the RCA port.
