

Philips  
wireless portable speaker

**Bluetooth®**

Splash proof  
with MULTIPAIR  
12W, Rechargeable battery

**BT6700B**

## Spin360

Easy grip, powerful bass

Chuck the speaker down any way you like, vertical or horizontal. 360° of sound and splashproof lets you get big sound all around, every time. Equipped with Bluetooth multipair, it allows instant music swapping between two devices.

### Sound that blows you away

- Two speaker drivers & passive radiators give immersive sound
- Digital Sound Processing for lifelike, distortion-less music
- 2 x 6W RMS total output power

### Advanced versatility

- Wireless music streaming via Bluetooth
- Swap music instantly between 2 devices with MULTIPAIR
- Built-in microphone for hands-free phone calls
- Audio-in for easy portable music playback

### Designed to go places

- Splash-proof design ideal for outdoor use (IPX4)
- Built-in rechargeable Li-ion battery for playback anywhere

**PHILIPS**

wireless portable speaker  
Bluetooth® Splash proof, with MULTIPAIR, 12W, Rechargeable battery

BT6700B/00

# Highlights

## Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

## Twin speaker drivers

Twin 1.5" Neodymium speaker drivers deliver natural, clear and balanced sound while dual opposing passive radiators extend and boost bass. Front and back full-range speaker drivers create even 360-degree sound, offering the freedom to enjoy the same quality sound wherever the speaker is facing.

## Digital Sound Processing

Advanced sound processing technology enhances the reproduction of your music so that each note resonates with crystal-clear accuracy, and each pause is sealed with pristine silence. Philips' proprietary Digital Sound Processing technology optimizes the performance of compact speaker boxes, delivering sound that is clear, detailed and powerful without any distortion.

## Splash-proof design

Water-resistant design allows enjoyment in wet and rainy environments. Tested to stringent IPX4 standards, internal components are proven to be protected from exposure to the elements, making music enjoyment indoors in the bathroom, kitchen or even outdoors whatever the weather.

## Swap music between 2 devices

Pair with 2 smart devices simultaneously so you can stream music from whichever device you want, without the hassle of un-pairing and re-pairing. To play a song on a different device, pause the song on the original device first and then play the new song on a different device to take over. It's perfect for sharing music with friends, parties, or just playing different songs stored on different devices. Let friends and family pair at the same time, so you can swap between each other's music easily.

## AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

## Built-in microphone

With its built-in microphone, this speaker also works as a speaker phone. When a call comes in, the music is put on pause and you can talk via the speaker. Call for a business meeting. Or, call your friend from a party. Either way, it works great.

# Specifications

## Compatibility
