Fast 10W wireless charging

For 10W charging performance, a Quickcharge charger is required. It identifies the charging standard of your wall charger or power strip to provide faster charging automatically.

Sleep-friendly LED indicator

The sleep-friendly LED charging indicator shuts off automatically after 7 seconds while the charging continues.

Charges through most cases

The wireless charger offers long charging distance that can charge through most phone cases

Anti-slipping design

Anti-slipping design to hold your phone at your desired position and prevent it from slipping out by the vibration of the phone.

Slim and light design

A slim and ergonomic design allows it to fit in anywhere without hassle.

Smart Protection

Smart protection against overheating, overvoltage and overcurrent
