The allure of sound

Obsessed with sound

Get into style with this Philips micro music system. Stream tunes effortlessly and wirelessly over Bluetooth®, dock your iPod/iPhone/iPad to charge and play music directly, and control your DAB+ radio and DigitalRadio app with SmartDAB.

Your complete music system

- High fidelity wireless Bluetooth®-aptX® music streaming
- Play and charge your iPod/iPhone/iPad
- DAB and FM compatible for a complete radio experience
- Play MP3-CD, CD and CD-R/RW
- USB Direct for easy MP3 music playback
- USB Dock for 30-pin device
- Free DigitalRadio app with RadioVIS and control of DAB+/FM

Rich and clear sound

- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimized music style settings
- Bass Reflex Speaker System delivers a powerful, deeper bass
- 30W RMS total output power

Design that blends into your interior

- Elegant design with super slim CD slot

PHILIPS

Highlights

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is, on top of FM analog transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can be find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no returning on the move.

Free DigitalRadio app

Tune in to radio extras with RadioVIS – a powerful feature provided by RadioDNS, an organization that links DAB stations with the Internet. With RadioVIS, radio becomes a richer experience with real time Internet content. It specifies how web information is added to radio function, giving you DAB broadcasts accompanied by vivid slideshows of news, traffic updates, commercials and more, deepening the information radio stations provide. To enjoy RadioVis, simply go to the Apple App Store to download the free Philips DigitalRadio app. The app also hands you full control of all DAB+ and FM radio.

Play & charge iPod/iPhone/iPad

Enjoy your favorite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favorite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

Play MP3-CD, CD and CD-R/RW

MP3 stands for "MPEG 1 Audio layer-7.6 cm (3") .MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the world wide web, allowing quick and easy audio file transfer.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Bluetooth®-aptX® streaming

With advanced technology, sound streamed via Bluetooth® is brought to the next level. Standard Bluetooth® audio uses SBC codec that is built for basic audio transmission, leaving listeners sometimes disappointed and dissatisfied. The Philips speaker, however, is armed with high fidelity Bluetooth®-aptX® wireless technology - giving you rich, powerful and crystal clear sound. Compatible with both latest Android™ smartphones, tablets and other devices, Philips now delivers the audio quality you have come to expect. Wireless music never sounded this good.

Specifications

Audio Playback

- Playback Media: CD, CD-R, CD-RW, MP3-CD
- Disc Playback Modes: 20-Track Programmable, Repeat/one/all/program, Fast Forward/Backward, Next/Previous Track Search, Repeat Play, Shuffle Play
