TX1WT

High-Resolution Sound

Premium drivers with oval sound tubes

The Philips TX1 delivers high-resolution sound with extended bass thanks to premium drivers and oval sound tubes. Custom-fit comfy ear caps ensure an immersive experience, while the flat cable keeps you tangle-free

Stay connected to your music and friends

- Built-in microphone switches you from music to phone calls

Sound technology excellence

- High-resolution audio reproduces music in its purest form
- Hybrid architecture for precise sound and extended bass
- Noise-isolating ear caps to block out ambient noise

Design for convenience

- Reinforced cable relief enhances durability and connectivity
- Tangle-free flat cable with slider for convenience on the go

Supreme comfort

- Choose from 3 pairs of ear caps for the perfect fit
- Ergonomic oval sound tube fits securely and comfortably

Highlights

Built-in microphone

The built-in microphone lets you switch from listening to music to taking phone calls - easily, so you'll always stay connected with what matters most to you.

Choice of 3 pairs of ear caps

Ear caps come in a choice of 3 sizes – small, medium and large – for a personalised and perfect fit.

Ergonomic oval sound tube

The oval shape of the sound tube came about based on extensive research on the human ear. Designed to fit any ear comfortably, the ergonomic shape ensures optimal fit and comfort for total music enjoyment.

Hybrid architecture

Hybrid architecture utilises high-power neodymium magnets for high-precision sound and enhanced bass

impact. Its hybrid form factor utilises larger 13.5-mm speakers in a compact headphone insert, which results in higher-quality sound along with true comfort.

Noise-isolating ear caps

Noise-isolating ear caps block out the ambient noise so that you can immerse yourself fully in your music, without any disturbance.

Reinforced cable relief

To extend the life of your headphones, a soft rubber relief between them and the cable protects the connection from damage through repeated bending.

Tangle-free flat cable

Flat cable ensures that your cord stays smooth and tangle-free - always. The cable slide adds stylish ease and convenience on the go.

High-resolution audio

High-Resolution Audio offers the best in audio performance, reproducing original studio master recordings more faithfully than 16-bit/44.1-kHz CD formats. This uncompromising quality makes High-Resolution Audio the best sound companion for the music lover. These headphones meet the stringent standards required for the Hi-Res Audio stamp of quality.
