- Enjoy up to 3 hours playback with a built-in battery*
- USB connection for video, photo and music playback
- AC adaptor, car adaptor and AV cable included
- Few buttons for simple and easy control

PHILIPS
sense and simplicity

Highlights

18 cm/7" TFT color LCD (16:9)

The color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints. The 16:9 widescreen aspect ratio is standard for universal to high-definition digital television. A native 16:9 aspect ratio means video display without bars at top and bottom of the picture and without the quality loss than comes from scaling, altering an image to fit on a different screen size.

MP3-CD, CD and CD-RW playback

MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without

radically degrading their audio quality. A single CD can store up to 10 hours of music.

View JPEG from picture disc

Play JPEG photos that are saved on your disc. Relive your favorite moments with family and friends anytime you want!

3 hours built-in battery*

This Philips player comes with a compact built-in rechargeable battery for long-lasting power. Up to 3 hours of continuous movie, photo and music playback enjoyment can be achieved on a single charge. Just plug in the power cable to recharge the player - it's that simple.

DivX Certified

With DivX® support, you are able to enjoy DivX® encoded videos. The DivX media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, and DVD recordable discs.

Enjoy 16:9 widescreen movies

Display and share your movies and digital photos with your friends and family. The 16:9 widescreen aspect ratio is standard for universal to high-definition digital television. A native 16:9 aspect ratio means video display without bars at top and bottom of the picture and without the quality loss than comes from scaling, altering an image to fit on a different screen size.

Specifications

Picture/Display

- Diagonal screen size (inch): 7 inch
- Display screen type: LCD TFT
- Resolution: 480(w)x234(H)x3(RGB)
- Brightness: 80 cd/m²
- Contrast ratio (typical): 200:1
