# Highlights

## Virtually interference free

Thanks to an advanced digital technology, calls are undisturbed by interferences from other devices.

## Speakerphone - Talk handsfree

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.

## Up to 1000-foot range

Move freely in and around the house within a range of maximum 150-foot indoor and up to 1000-foot outdoor (in ideal open-air conditions).
