- Elegant speakers in aluminium and glass ensure a robust sound

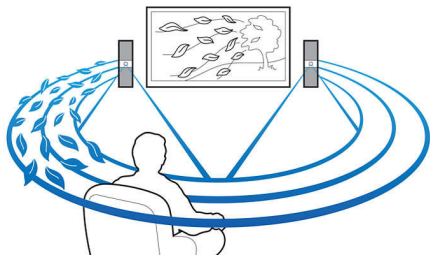

#### Simply enjoy all your entertainment

- Full HD 3D Blu-ray for a truly immersive 3D movie experience
- Built-in Wi-Fi to enjoy your connected media wirelessly
- HDMI Hub to connect HDMI devices for great sound and pictures
- Smart TV to enjoy online services and access multimedia on your TV

# PHILIPS

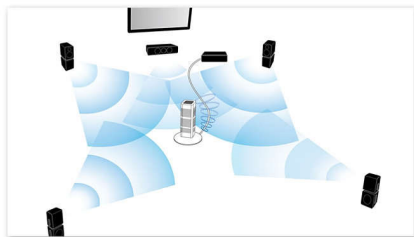

# Highlights

## Premium soft dome tweeters

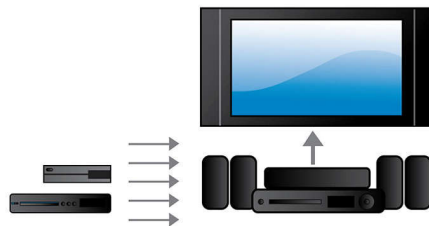

With Philips' Crystal Clear Sound, you will now be able to discern and appreciate every sound detail the way it's meant to be heard and as the artist or director intended! Crystal Clear Sound reproduces the sound source—whether it's an action film, a musical or a live performance—faithfully, precisely and without any distortion. Philips home theatres with Crystal Clear Sound keep audio processing to a minimum, preserving the purity of the original audio content. The result is greater sonic accuracy delivered to your ears.

## Auto calibration

Adjusting your new Philips home theatre for optimum sound experience is now a breeze. With the simple touch of a button on the remote, the intelligent pre-loaded sound calibrator software is launched and emits test signals to the speakers. These signals are captured and analysed by the auto-calibration microphone and the necessary adjustments are made, taking into consideration the distances between speakers and listening positions, the loudness and the delay response of audio signals from each speaker. In 60 seconds, your in-room sound experience is enhanced and optimised.

## HDMI Hub

The HDMI Hub provides additional HDMI ports to allow you to conveniently connect other devices such as your games console or HD set-top box to your home theatre. By connecting your devices through the HDMI Hub, you can enjoy high-definition sound and pictures for all your entertainment.

## Built-in Wi-Fi

Thanks to built-in Wi-Fi, by simply connecting your home theatre directly to your home network, you can experience a rich selection of popular online services. You can enjoy some of the best websites offering movies, pictures, infotainment and other online content tailored to fit your TV screen.

## Full HD 3D Blu-ray

Be enthralled by 3D movies in your own living room on a Full HD 3D TV. Active 3D uses the latest generation of fast switching displays for real life depth and realism in full 1080 x 1920 HD resolution. Watching these images

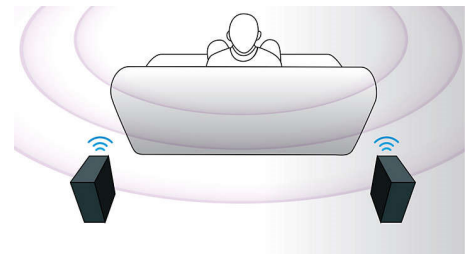

through special glasses with right and left lenses that are timed to open and close in synchrony with alternating images creates the full HD 3D viewing experience in your home cinema. Premium 3D movie releases on Blu-ray offer a wide, high-quality selection of content. Blu-ray also delivers uncompressed surround sound for an unbelievably real audio experience.

## Smart TV

Philips home theatre systems with Smart TV offer you an array of enhanced features, including Net TV, DLNA and MyRemote. Net TV brings a wide range of online information and entertainment to your TV. Simply select Net TV in the Home Menu and start browsing for services like video-on-demand shops\* for the latest releases in HD, and Catch-up TV. With DLNA, you can access photos, music and movies stored on your PC from the comfort of your sofa. Can't find the remote control? Simply use your smartphone or tablet PC to control your home theatre via the Philips MyRemote app.

## Wireless rear speakers option

Wireless rear speakers give you scalability and mobility in speaker placement. Developed using interference-free technology, wireless speakers provide full surround sound without unsightly wire connections.

# Specifications
