

Philips Prestigo
Universal remote control

Touch 15-in-1

PRESTIGO

SRT8215

Total control simplified

Full functionality with only the keys you need

It's time to put away all those remote controls! The Prestigo SRT8215 controls up to 15 devices in one and presents the keys you need, easily accessible via the LCD touch screen. Set up your Prestigo via computer and enjoy your home entertainment.

Intuitive navigation

- Easy access to specific functions via the 5.6-cm LCD screen
- Full-colour touch screen for easy navigation
- Backlit buttons to control your devices in the dark

Fast, easy access to your entertainment

- Activities to control multiple devices
- Direct access to your favourite channels

Simple and easy setup

- Easy computer setup in a few simple steps, on Windows or Mac
- Software updates via Internet
- Control any device of almost any brand

PHILIPS

Highlights

Control virtually any device

The Prestige infrared code database with over 300,000 devices allows you to control virtually every device on the market today, regardless of model or brand. Via the computer setup, the correct infrared code will be selected for your devices in the database.

Easy access via LCD screen

A 5.6-cm (176 x 220 pixels) full-colour LCD display provides high resolution quality and easy readability. The touch-sensitive screen shows only the keys you need and allows you to navigate quickly through the remote screen.

Activity-based control

Start your home entertainment activities with one touch of a button instead of controlling each individual device in separate steps. Simply press the activity button like 'Watch a movie' and the Prestige will automatically switch on the different devices, such as the TV, DVD player and Home theatre system, to watch a movie.

Future Proof

The Philips Configo software automatically informs you about online updates for your Prestige. The Configo software will download the updates and take care of the installation.

Easy computer setup

Connect your Prestige remote to your PC or Mac via USB for an easy computer setup in your language. Customise any functionality in a few simple steps.

Backlit keys

The illuminated keypad makes it easy to control all your devices, even in the dark.

Direct favourite channel access

Channel icons for most countries' main TV and radio stations can be installed on your remote control. Once set, you zap easily to your favourite channels using the stations' icons instead of pressing the digit buttons on your remote.
