

Big sound, shockingly clear

Philips SHOQBOX wireless portable speaker

PHILIPS
sense and simplicity

A group of four young adults (three men and one woman) are running across a city street, carrying speakers. They are dressed in casual, trendy clothing like denim jackets, plaid shirts, and jeans. The background shows a city street with cars, trees, and buildings under bright sunlight. A semi-transparent dark grey box with a white polka-dot pattern on the left side is overlaid on the image, containing the text.

The SHOQBOX story

The SHOQBOX range of wireless speakers gives you the freedom and versatility you need. Because we took our inspiration from your lifestyle to create these speakers for you.

Your SHOQBOX can be your personal music station – and its sound is so powerful you can share it with your friends. Use it in and around your home or take it with you on the go.

Yes, it's durable and robust. Yes, it's compact and portable. And yes, it's designed to impress. But its beauty is way more than skin deep. It's simply the best sound you can carry around.

SHOQBOX – Big sound, shockingly clear

SHOQBOX

design inspiration

Turning inspiration into reality.

In this age of air-thin laptops and super clever smartphones, you no longer need to compromise between aesthetics and performance.

The same holds true for your portable music players. Because now there's SHOQBOX, with its stunning good looks and shockingly great sound.

The inspiration for the SHOQBOX exterior comes from beautiful, free-form everyday objects. This guided us in designing a product that looks great on its own as a music speaker, and also complements its environment.

It's so freestyle you can enjoy SHOQBOX on its side or standing up. And naturally its size and form are optimized for the best sound performance.

SHOQBOX – A striking innovation in design

Making the most of your music

Music is such a big part of our life. Sometimes we like to listen in splendid isolation, sometimes share a special song with friends and other times really move to the beat at a dance party.

Your SHOQBOX performs for you and your friends, wherever you are and whoever you're with.

At normal volume, the wide range and clear, detailed sound from the neodymium speaker drivers let you immerse yourself in your music. And when it's time to max out your music, the bass really kicks in, thanks to the Philips woox passive radiator. SHOQBOX really delivers – high volume, clear sound, no distortion.

SHOQBOX – Maximizing your music experience

Take this SHOQBOX along when you are on the go. It's resilient, made with a rugged rubber protective housing for the rough and tumble of your lifestyle.

It's sturdy and shock resistant so it's okay even if you accidentally drop it. It's also splash proof for that unexpected rainfall. And you can even be a little insensitive with it, it can handle tough love. All of that, and it still sounds as great as ever!

SHOQBOX – A great companion for the outdoors person in you

SB7300

Great looks and great sound in an elegant and portable package. Its sturdy aluminum casing makes it a stylish accessory for your contemporary urban lifestyle.

SB7200 Series

Hardwearing and tough, this SHOQBOX is made for the outdoor enthusiast. Perfect for camping, biking, climbing – just clip it to your belt or bag and off you go!

SB7100

Light and compact, yet sturdy and durable, your SHOQBOX complements your on-the-go lifestyle. Simply drop it into your bag and take your music with you.

Choose your SHOQBOX

Whatever your lifestyle, there is a SHOQBOX for you. Stylish, trendy, ready to go – a range of quality speakers to complement your lifestyle. Each is a premium product made with superior material and fine detailing.

Stream music from your smartphone or Bluetooth device wirelessly to your SHOQBOX. Play it at home, at a party, in your car, at the beach, or anywhere your imagination takes you.

It's compact and easy to carry, but don't be misled – its size does not compromise on sound performance.

SHOQBOX – Shockingly big sound anytime, anywhere
