Highlights

Display weather forecast

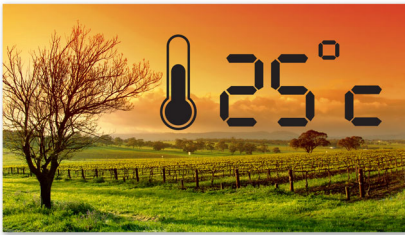

Display weather forecast with graphical animations

Multi-color light indicator

This cool multi-color weather indicator lights up in a range of colors depending on the weather conditions. From orange on sunny days, blue on cloudy days to purple on rainy days, you can tell what the weather is like even if you are a distance away from the clock radio.

Temperature display

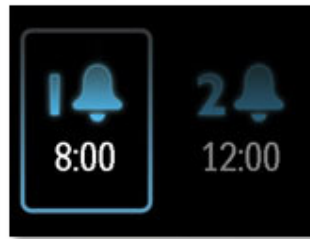

Weather information at your fingertips. The Philips Clock radio gives you the most current temperature available. Its smart temperature sensor displays outdoor temperature anytime.

Built-in hygrometer

The Philips Clock radio will give you the most current relative humidity available. Its smart sensor displays indoor humidity anytime.

Dual alarm time

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other to wake up your partner.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Radio-controlled clock

Radio-controlled clock automatically synchronizes with the local radio broadcast's standard time so you don't ever need to worry about checking for accuracy or making adjustments. Accurate time without latency is ensured daily or while the clock's power is on. Rest assured you'll always be punctual for every appointment!

Table-stand/wall-mount options

The perfect combination of a slim and versatile design, your Philips audio system is cleverly designed to blend into your living space. The base of the audio system is a stand so the system can sit securely and nicely on any shelf or cabinet. When wall mounted you have all the same flexibility of the freestanding stand.
