Highlights

Our packaging are small
We make our packaging as small as possible to minimize materials used in production as well as fuel during transportation.

Keep time with fun clocks
Switch to the clock mode when you don't need to view photos. Instantly, your PhotoFrame become a clock.

Automatic slideshow start up
Slideshow of photos starts automatically once you insert the memory card.

imagen Pro for vibrant colors
The unique Philips imagen enhancement technology automatically analyzes your photos to correct color and adjust for optimal contrast. imagen Pro is a more advanced image enhancement which includes the 3 essential elements from imagen to have more color accuracy, color depth and smart contrast. On top of these, imagen Pro offers enhanced skin color, sharper images and flicker-free photo viewing which is very important for still pictures.

RadiantColor
RadiantColor is an exclusive Philips technology for displaying smaller photos in the optimal 4:3 ratio by extending the color on the edges of a less-than-full-screen photo to the sides of the screen, eliminating black bars and aspect ratio distortion.
