D7051B

## Elegance and performance

This elegant and sophisticated phone delivers stunning sound reproduction of HQ-Sound. Enjoy a large, high-contrast color TFT display and a host of other great features, enclosed in a sleek and refined body.

### Experience true convenience

- High contrast, 5.1 cm (2.0") TFT color display
- Up to 60 min. message on your answering machine
- Reserve power mode allows to use the phone during power cuts
- Privacy settings: call barring, silence mode with filtering
- Baby monitor alerts you when baby needs your attention
- 2.5mm headphone jack and beltclip for easy handsfree calling
- Up to 20 hours of talk time

### Exceptional sound

- HQ-Sound: high quality acoustic engineering for superb sound
- MySound profiles to match your sound preference
- Full-duplex echo cancellation ensures a smooth conversation
- Freestanding handset with a speaker for easy handsfree calls

### Eco-conscious product

- Low radiation (ECO and ECO+ modes) and power consumption

# PHILIPS

# Highlights

## Full-duplex echo cancellation

Natural conversation does not involve taking turns – there is always some natural overlap. Now thanks to our full-duplex echo cancellation, you can hear perfectly, even if you are both talking at the same time.

## 5.1cm (2.0") TFT color display

High contrast, 5.1 cm (2.0") TFT color display

## Baby monitor

Receive an alert when your baby needs you. Just place the DECT handset in the baby room and receive an alert on your base or on another DECT phone (i.e.. another landline number) or mobile phone (when you're out) when the baby starts to cry.

## Eco-conscious model with ECO+

Philips phones are energy efficient and designed to be respectful to the environment. When ECO mode is activated the emitted radiation is reduced by up to 60%, and up to 95% when the phone is charging. When ECO+ mode activation the radiation drops to zero.

## Handset speakerphone

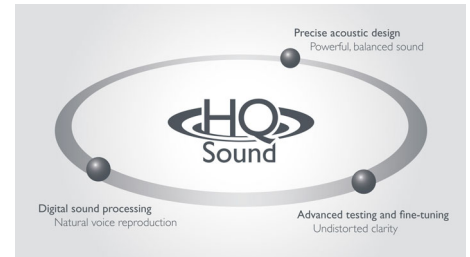

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

## Headphone jack & beltclip

2.5mm headphone jack and beltclip allow comfortable handsfree conversation even if you have to move around the house.

## HQ-Sound

Philips cordless phones with HQ-Sound: build upon decades of experience and breakthrough innovations in developing Hi-Fi audio products and high-end headphones to deliver excellent voice clarity on our DECT phones. When it comes to improving sound quality, our acoustics engineers and architects have thought of everything – high quality components, digital signal processing, precise acoustic design, advanced testing and fine-tuning. The result is sound that is crisp, clear and authentic. Sound so good and natural, it is almost like being there in person.

## Privacy modes

Value your privacy and quiet at home? Easily disable the ringtones for specific "no call" times to enjoy peace and silence. An additional filtering function allows any number chosen from the phone book to still ring when calling, making sure that only "right" people can reach you. Thanks to call barring you can avoid expensive phone bill surprises by blocking calls to specific numbers, to numbers starting with certain digits (for example pay per call numbers) or to specific area codes.

# Specifications

## Picture/Display

- Display size: 5.1cm / 2.0"
- Display type: TFT color 262K
- Backlight: Yes
- Backlight color: White

## Answering Machine
