- Enjoy up to 6 hours continuous non-stop playback*
- SD/SDHC card slot for music, photo and video playback
- Brightness automatically adjusts to ambient light
- Smart Car Mount for ease-of-use

PHILIPS

Highlights

180-degree swivel screen

The screen swivels 180° to give you the optimum viewing angle for watching movies and photos. Rotate the screen or adjust it up and down to cut down on glare and get the best viewing angle possible.

22.9 cm (9") HD LCD display

The high resolution (800 x 480 pixel) color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints.

Display photos

Simply insert your disc or memory card into the player and your digital photos will be played directly on the device.

Play MP3/WMA-CD, CD and CD-RW

Audio compression technology allows large digital music files to be reduced up to 10 times in size without radically degrading their audio quality. MP3 or WMA are two of the compression formats that let you enjoy a world of digital music on your Philips player. Download MP3 or WMA songs from authorized music sites on the Internet or create your own MP3 or WMA music files by ripping your audio CDs and transferring them onto your player.

Smart Car Mount

To enjoy entertainment on the go, why not bring your portable DVD player from home on the road with you? A unique Car Mount system ensures ease-of-use, with a quick-release arm that facilitates easy removal of the player when not in use. You can bring the portable DVD player with you, leaving just the Mount behind in the car.

Up to 6 hrs movies playback

This Philips player comes with a compact built-in rechargeable battery for long-lasting power. Up to 6 hours of continuous movie, photo and music playback enjoyment can be achieved on a single charge. Just plug in the power cable to recharge the player - it's that simple.

DivX Certified

With DivX® support, you are able to enjoy DivX encoded videos and movies from the Internet, including purchased Hollywood films. The DivX media format is an MPEG-4 based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW and DVD recordable discs, USB storage and other memory cards for playback on your DivX Certified® Philips device.

SmartBright

SmartBright is an exclusive Philips feature that employs a built-in sensor to automatically adjust display settings, delivering the very best viewing experience, reduced energy consumption and prolonged monitor life while eliminating bright-screen-dark-room and dark-screen-bright-room eyestrain fatigue - all without the bother of manually adjusting display brightness as room lighting conditions change.
