

**Philips
Soundbar 2.1**

200 W max. Built-in subwoofer

Dolby Audio
DTS Play-Fi compatible
Connects with voice assistants

TAB8205

Deeper sound for films and music

No space for a subwoofer? No worries. This sleek soundbar features a built-in subwoofer and a low-rise design that fits under most TVs. You'll experience effects that rumble, more powerful music and clearer dialogue--without the clutter.

Easy control. Distinctive looks.

- Dimensions: 857 x 67 x 115 mm
- Distinctive geometric design. Easy placement
- Easily connect to your favourite sources
- Connects to your favourite voice assistant-enabled devices

Unpack. Connect. Enjoy.

- HDMI ARC. Control the soundbar with your TV remote
- Play-Fi. From multi-room audio to surround sound
- Spotify Connect. Bluetooth. Apple AirPlay 2. Optical-in

The sound that you want for the content that you love

- 2.1 channels. 120 W RMS. 200 W max (10% THD)
- Smart, compact soundbar with built-in subwoofer
- Dolby Audio. Be at the heart of the action

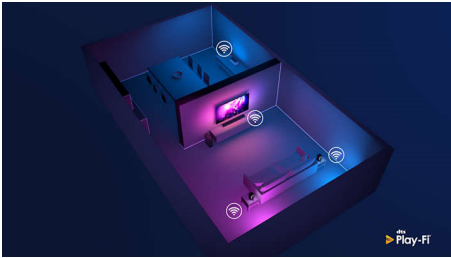

PHILIPS

Highlights

Smart, compact soundbar

This soundbar brings a new dimension of sound to everything you watch and every track you love. 2.1 channels make soundtracks richer, effects more thunderous and dialogue clearer. The built-in subwoofer adds impact to every explosion and every beat.

Play-Fi. Multi-room and more

Easy Play-Fi compatibility will make this soundbar the star of your multi-room set-up. You can sync Play-Fi-compatible speakers for multi-room audio or even create a true surround-sound system—all via the Philips Sound app or the Play-Fi app.

Dolby Audio

Be immersed in your favourite shows and movies. This soundbar with built-in subwoofer supports the Dolby Digital Plus format for a more expansive and involving experience.

Voices will be clearer. Effects will be more impressive.

All of your favourite sources

Spotify Connect lets you stream Spotify's best-quality signal over Wi-Fi. You can also stream hi-res playlists from your mobile device via Apple AirPlay2 or Bluetooth. Audio-in lets you connect legacy audio sources and the soundbar has optical-in as well.

HDMI ARC

The days of hunting for multiple remotes are over. This soundbar connects to your TV via HDMI ARC, allowing you to control soundbar volume with the same remote that you use for your TV.

Connect with voice assistants

Ask Alexa-enabled devices, or any speaker that works with the Google Assistant, to play music

through the soundbar. Prefer Siri? This soundbar works with Apple AirPlay 2, so you can ask her too. Turn the music up. Skip tracks. All completely hands-free.

Low profile. Easy placement

This soundbar boasts a unique slanted design and a low profile. When it comes to placement, the included wall brackets keep your options open. Thanks to the integrated subwoofer, you don't even need to worry about finding a place on the floor for an extra speaker!

2.1 channels. 120 W output

2.1 channels. 120 W RMS. 200 W max (10% THD)
